

PURPLEGLITCH.neocities.org

This repository contains the source files for the static Neocities site "PURPLEGLITCH".

Contents

- [index.html](#) — home page
- [guestbook.html](#) — guestbook page
- [music.html](#) — music / audio page
- [images.html](#) — images / gallery
- [socials.html](#) — social links page
- [style.css](#) — main stylesheet
- [minority_report_style_guide.txt](#) — internal style notes
- [README.md](#) — this file

Preview locally

- From the repository root run a simple HTTP server and open the browser:

Python 3:

```
python -m http.server 8000
```

Then open: <http://localhost:8000>

Contributing / deployment

- This is a simple static site. Edit the HTML/CSS files and preview locally as shown above.
- To publish, upload the updated files via the Neocities web interface or any deployment method you use (Neocities provides a web-based file manager and optional git integration).

Author

- psybyte

Notes

- Add a LICENSE file if you want to specify reuse terms.
